

Dima Kiselev

Backend Developer · Python · Go · C++ · Rust

github.com/qqwozz · t.me/onixed · offconix@gmail.com · Moscow, Russia

EXPERIENCE

Backend Developer (intern) — VTB

Sep 2025 — Jun 2026

- Built high-load API gateway on Go (Gin, gRPC) — handling >1000 RPS
- Resolved 10+ L2 incidents: ELK log analysis, root cause identification, 2 solutions added to knowledge base
- Grafana dashboards (CPU, memory, latency) and Prometheus alerts with threshold values
- Optimized complex SQL queries (JOINS, window functions) for PostgreSQL and Oracle, post-migration data integrity checks
- 5+ Python scripts for automated log collection — reduced manual review time by 40%
- Technical documentation, monitoring runbooks, sprint planning and Jira/Confluence task tracking

SELECTED PROJECTS

QW Pay

2024

- Payment system with multi-currency accounts and real-time conversion (200+ currencies)
- C++ anti-fraud engine: velocity <1ms, Python scoring blocks suspicious transactions
- ACID transactions, idempotency, JWT + OTP authentication

Go · C++ · Python · PostgreSQL · Redis · Docker

ENF Shop

2024

- E-commerce with catalog, filtering, smart cart and Stripe payments
- HTMX no-reload cart, filtering by categories, sizes, price
- Production-ready Docker (Nginx + Gunicorn)

Django · PostgreSQL · Redis · HTMX · Stripe · Docker

AutoAdmin

2024

- API + Telegram bot for client appointment scheduling with subscriptions
- Clean architecture, JWT auth, SQLite, Docker

Go · SQLite · Telegram Bot API · JWT · Docker

OAuth 2.0

2024

- OAuth 2.0 authorization implementation with Authorization Code Flow
- Go backend, Shell automation scripts, HTML frontend

Go · Shell · HTML

CORE STACK

Backend

Python (FastAPI, Django, Aiogram) · Go (Gin) · C++ · Rust · gRPC · REST

Data

PostgreSQL · Redis · SQLite · Celery

Infra

Docker · Linux · Nginx · Gunicorn · GitHub Actions CI/CD

Tools

Git · Postman · VS Code · HTMX · OAuth 2.0 · Stripe API

EDUCATION

Faculty of Information Technology

2025 — present

Bachelor's · High-load systems, algorithms and data structures

Additional courses

2022 — present

Yandex Lyceum · IT School Samsung · Version Control with Git (Coursera) · Programming with Google Go (Coursera) · Grokking System Design Int

LANGUAGES

Russian — C2, native · English — B1
